# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances )  
on November 24, 1974
- Export shipments in  
Current Marketing Year
- Daily Sales reported  
November 25-Dec. 3

--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our brief experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

U. S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on December 5, 1974, release:

Wheat: Pakistani commercial purchases of 97,000 metric tons (M.T.) for December shipment were recorded last week under the daily reporting system. This brings the apparent export commitment (cumulative exports plus outstanding sales) to Pakistan to about 410,000 M.T. for 1974/75; this total does not include the recently signed P.L. 480 agreement for about 100,000 M.T. Pakistan has secured wheat commitments from other nations totaling about 400,000 M.T. The *Pakistani* country's 1974-75 import requirements are currently estimated at 1.0-1.5 million M.T.

Feed Grains: The main feature during the past week was Mexican purchases of U.S. corn and sorghum. Sales to Mexico recorded under the daily reporting system totaled 390,000 M.T. for corn. Some additional sales of both corn and sorghum were also reportedly made in lots smaller than 50,000 M.T. The Mexican purchases bring the apparent export commitment to Mexico to 1.3 million M.T., still about 300,000 M.T. short of the country's estimated total 1974/75 import requirements. European Community Member States granted import licenses for 2.2 million M.T. of corn from all sources between August 1 and November 26; this represents an annual rate of less than 7 million M.T. If imports from all other origins total as much as 3 million M.T., this would mean a requirement of only about 4 million M.T. of corn from the U.S.A. in 1974/75.

Rice: The apparent export commitment for 1974/75 increased slightly during the week but remains substantially below the USDA estimate. Shipments under P.L. 480 are expected to increase later in 1974/75.

Soybeans: According to Bureau of the Census data released on November 29, 1.5 million M.T. were exported during the period September 1 - October 31, 1974. This quantity is about 10 percent below the level of 1974/75 shipments reported by exporters through October 27, the closest corresponding period in USDA's weekly Export Sales Report, even though the Census data covers 4 additional days. One possible explanation for the apparent discrepancy might be that export declarations already mailed by the shipper on the reporting date have not yet been picked up in the Census data.

Soybean Cake and Meal: The apparent export commitment for 1974/75 is still roughly twice the current USDA estimate. However, shipments during the first 8 weeks of the marketing year are running at an annual rate well below the estimate on an unadjusted basis and within the range of the estimate when adjusted for normal seasonal variation.

Cotton: New sales reported during the week exceeded exports of 51,000 running bales (R.B.). The apparent export commitment for 1974/75 is now slightly in excess of 4.1 million R.B., still within the range of the current USDA estimate (3.8 - 4.3 R.B.).

SPECIAL NOTE

Data in this report include export sales, export shipments and other related transactions between private U.S. exporters and foreign buyers. Sales made and shipments financed under Title I, P.L. 480 are included in weekly reports to the Department, but are excluded from daily reporting requirements under Notice to Exporters No. 1, Revision 1. Purchases by the Commodity Credit Corporation under Title II, P.L. 480 which result in exports by CCC or voluntary agencies, do not meet any of these reporting requirements and are not included in the data on the following tables.
